

## PIEZOELEKTRICKÉ BZUČIAKY

716293

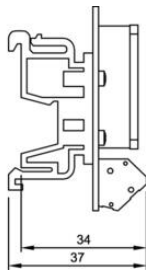

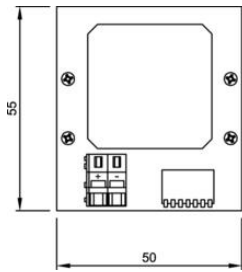

- Napájanie 24 V DC
- Menovitý prúd 0,03/0,018 A
- Intenzita zvuku 85/92 dB
- Montáž na DIN lištu a skrutku

### POPIS PRODUKTU

### ŠPECIFIKÁCIA

|                          |                                                                                           |
|--------------------------|-------------------------------------------------------------------------------------------|
| Frequency bandwidth      | 200–4000 Hz                                                                               |
| Hmotnosť                 | 0,028 kg                                                                                  |
| Montáž                   | DIN lišta                                                                                 |
| Napájanie napätie        | 24 V DC                                                                                   |
| Nominálny prúd           | 0,03 A                                                                                    |
| Rozměry                  | 50×55×37 mm                                                                               |
| Rozsah vstupného napätia | 10–30 V DC                                                                                |
| Sound pressure           | 92 dB                                                                                     |
| Temperature range        | -40...+70 (+85 10 min.) °C                                                                |
| Typ pripojenia           | Pružinová svorka                                                                          |
| Zhoda s normami          | EN 45545-2:2013+A1:2015, EN 50121-3-2:2016, EN 50155:2017, EN 50124-1:2017, EN 61373:2010 |
